What Is a Direct Object?

Definition and Basic Concept

A direct object is a noun, pronoun, or noun phrase that receives the action of a verb directly in a sentence. It answers the questions "what?" or "whom?" after the verb. Essentially, it completes the

meaning of the verb by indicating what or whom the action is performed on.

Example:

- She reads a book.

Differences Between Direct and Indirect Objects

While the direct object receives the action directly, the indirect object indicates to whom or for whom the action is performed.

Understanding this distinction is crucial for correctly answering worksheet questions that ask for the direct object specifically.
